Please join us on a #CroakeyGO, a shared public act of walking journalism, as we discuss health matters while walking from Marrickville to UTS in Sydney.

We will be “searching for hidden secrets”, a theme to explore collectively as a group and also contemplate from our individual perspectives, as we pay our respects to the Traditional Owners, the Cadigal and Wangal people of the Eora Nation.

The event is co-hosted by Dr Megan Williams and Girra Maa at UTS, the Graduate School of Health Indigenous Health Discipline.
