They shouldn’t. That’s why Medivac legislation is so essential.

A sobering screening of “Against Our Oath” at #ACEM19. @Turtle1doc now taking the stage to talk about how over 60 FACEMs have been involved in the Medical Evacuation Response Group.
Powerful quote to complete the screening of ‘Against Our Oath’ – A Film about Ethics by Heather Kirkpatrick

Some really difficult questions in this session. Is it worse to have no doctor, or a doctor who is compromised? Most clinicians who go with the very best intentions end up profoundly damaged #ACEM19

We need to build a very powerful regional coalition to support the Pacific Island clinicians who have to treat these people often in very difficult conditions and with very little resources. And there is still work that needs to be completed under the Medevac legislation #ACEM19
