I hope every mental health professional, provider, educator, funder & politician takes time to LISTEN to this declaration and finds ways to respect & action it. That would be wonderful. A privilege to be at #VMIAC2019 this week and feel the energy and hope for something better

Such amazing work by @VMIAC and especially @IndigoDaya inclusive, expansive, beautiful, both heart warming and heart breaking. Well done, well done, well done to all involved. @MartinFoleyMP let's not ignore or waste this opportunity for real change. twitter.com/VMIAC/status/1...

There will be a more detailed version of The Declaration coming soon.

For the A4 version launched yesterday we had to leave out dreams that were only mentioned once. There were so many it didn't fit. 😊

But every dream matters so we're working on a more detailed version...
